The BMW N62 is a naturally aspirated DOHC V8 engine which was produced from 2002â€“2010. It is the world's first engine to use a continuously variable-length intake manifold, and BMW's first V8 to feature variable valve lift (Valvetronic) . Compared with its M62 predecessor, the N62 also has variable valve timing on both the intake and exhaust camshafts (double-VANOS).
