Who Needs Human Performance Technology? The goal of any organization is to demonstrate its performance—the results or outcomes of its efforts.

Who Needs Human Performance Technology?

Root cause analysis (RCA) is a method of problem solving used for identifying the root causes of faults or problems. A factor is considered a root cause if removal thereof from the problem-fault-sequence prevents the final undesirable outcome from recurring; whereas a causal factor is one that affects an event's outcome, but is not a root cause.
