SPM Physics Form 4/Form 5 Revision Notes

Physics Form 4: Chapter 2 - Newton First Law of Motion (Inertia) Inertia is the tendency of an object to remain in its state. of rest or of uniform motion in a straight line. Law of inertia is also known as Newton's First Law of Motion Newton's First Law of Motion state that an object will in its state of rest or of uniform motion in a straight line unless it is acted upon by a net external force.

Introductory Physics I - Duke University

The 4 equations are used when the motion is uniform acceleration. Motion with changing acceleration is not in SPM Physics syllabus. It will be discussed in Form 5 add maths.

PHYSICS is fun . : Chapter 2: Force and motion

The normal force is greater than the force of gravity when there is an upward acceleration (B), less than the force of gravity when there is a downward acceleration (C and D), and equal to the force of gravity when there is no acceleration (A).
